TEMPE

PROMINENT VISITOR

ADDRESSES NORMAL

Gives An Interesting and Instructive Talk on His Own Country.

The Honorable Niel Nelson visited the Tempe normal yesterday morning and delivered a short address to the student body. He was accompanied on his visit by B. A. Fowler and Dwight B. Heard, all of whom were on their way to the Roosevelt dam.

As a preliminary to the expected speech from the Australian cabinet member, Mr. Fowler gave a short history of the distinguished guest. As Mr. Fowler said, a gentleman seldom touches upon his own history, and as it was thought that there might be a few in the audience who would like to know about Mr. Nelson he would tell it himself.

At the close of Mr. Fowler's speech he introduced the Honorable Niel Nelson. Mr. Nelson stated that he was sent to this country by the trade commissioners of New South Wales to look over the art of agriculture, and especially irrigation. He then told of his home country, at all times standing up for it, and at the same time comparing it with the United States. He touched upon the geographical features of Australia and then went into detail on their commerce and trade. His talk throughout was very interesting and at the same time very instructive. As Mr. Matthews said at the close, "I have learned more about Australia during this half hour than I had ever known before even though I have studied the country during my whole school life." And there were without a doubt a large number of others in the audience who derived the same benefits from the address as did President Matthews.

The guest left, after a short inspection of the grounds, in company with the other two gentlemen mentioned for their destination, Roosevelt dam.

FACTORY GIRL GIVES UP

Too Sick to Work—Doctor Advised Operation. Restored to Health by Lydia E. Pinkham's Compound.

Poughkeepsie, N. Y.—"I run a sewing machine in a large factory and got all run down. I had to give up work for I could not stand the pains in my back. The doctor said I needed an operation for female trouble but Lydia E. Pinkham's Compound helped me more than the doctors did. I hope that every one who is suffering will get the Compound. My pains, nervousness and backache are gone and I have gained five pounds. I owe my thanks to your medicine for it is the working girls friend, and all women who suffer should write to you for special advice."—Miss TILLIE PLENZIG, 3 Jay St., Poughkeepsie, N. Y.

When a remedy has lived for over thirty years, steadily growing in popularity and influence, and thousands upon thousands of women declare they owe their very lives to it, is it not reasonable to believe that it is an article of great merit?

We challenge anyone to show any other one remedy for a special class of disease which has attained such an enormous demand and maintained it for so many years as has Lydia E. Pinkham's Vegetable Compound.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

TEMPE

CONGREGATIONAL CHURCH

The services at the Congregational church tomorrow will begin with Sunday school at ten o'clock. At eleven o'clock Prof. J. L. Felton will deliver an address entitled "Values Real and Visionary." Special music will be furnished. Christian Endeavor at seven-fifteen.

TEACHERS RETURN

Charles Pickrell and Leonard Dykes, both members of last year's graduating class at the Normal, returned yesterday to spend the summer months teaching in the one school within close vicinity of Tempe.

CATTLE DEALER HERE

Wm. Spear, representing the Spear Cattle company of Wyoming, came in yesterday morning from that place to spend the day with J. W. Crawford, the company range manager, who has been located here for the past six months. Mr. Spear left on the Maricopa train last night for Silver City, New Mexico, where he has further business to transact in the interest of the company. Although he has just been in the valley a few days he is greatly impressed with everything, and especially the thriving cattle industry. The company which the gentleman represents is claimed to be the largest cattle raising organization in the southwest. The range covers three counties in Wyoming which is also the largest in that vicinity.

COUNCIL MEETING

The regular monthly meeting of the town council took place Thursday night in the council chambers. Little business was transacted there, other than that which is handled monthly.

INSTITUTE POSTPONED

The farmer's institute which was to have been held at the local high school today has been indefinitely postponed. At the time announcement was made of the meeting a number of speakers were engaged to appear on the program, but since that time other arrangements have been made, whereby the speakers could not be present at the appointed time. Mention will be made as soon as another date is settled upon, in these columns.

E. BROOKS TAKES MEDAL

There has been considerable debate in the local high for the past week, as to who would make the highest batting average on the ball team this season. And what made it more exciting was that Frank Lamont, the Tempe jeweler, had offered a silver medal to the lucky batter. The averages of the three highest men are as follows: E. Brooks, two hundred and ninety six; Hegel, two hundred and seventy three; Estrada, two hundred and twenty-two. Dines has an average of five hundred for three games, but he was not allowed to compete for the medal on account of his withdrawal from school.

LADY MACABEES ARE BUSY

Mrs. Aydelote, the supreme saint commander of Arizona for the L. O. T. M. O. T. W. is visiting the L. O. T. M. O. T. W. in this vicinity. On last Wednesday the Tempe hives called a special meeting, as she was unable to make the regular meeting day, for the purpose of meeting Mrs. Aydelote who is also the supreme chaplain. All enjoyed a very pleasant and profitable afternoon. Thursday night she visited the Mesa city hives and although the weather was threatening and the roads bad, about fifteen Tempe ladies braved the storm and went over to help initiate some new candidates and spend another pleasant evening with the distinguished lady. She is said to be very sweet in her personality, and there is little doubt but what her helpfulness will be remembered by both Tempe and Mesa hives of that order.

Chandler

Sears and Gifford of Los Angeles have been awarded the contract for the Mesa Improvement company's hotel at Chandler. The contract figures are in the neighborhood of \$100,000. Mr. Gifford who will be in direct charge of construction under the supervision of Arthur E. Benton, the architect, is now on the ground gathering his forces and arranging for the housing of materials. The excavation has been sublet to the Norton Grading Co. and ground will be broken Friday morning.

This week over a thousand feet of concrete walk has been placed from the site of the railway station to the park and a large force of men is finishing up the curbing and gutters. The Arizona & Eastern Railway Co. is laying out station grounds where they will build a depot of concrete masonry architecture to conform to the general type of buildings in Chandler.

C. D. Hellyer of Los Angeles arrived here yesterday with a party of eight from California.

W. H. Sexton, J. T. Keefauver and S. P. Southwick all from California are property.

MESA

THIRTEEN GRADUATES FROM HIGH SCHOOL

Commencement Program for May 17th Arranged and Invitations Issued to Parents and Friends

Since the establishment of the Mesa Union high school, commencement day has been a big event in this community. Every year a large class of the young ladies and gentlemen of the high school district has been graduated and the young people go from the class room here to the Normal school, the University or to some college to complete their education in the higher branches. Not all of course carry their school days beyond the high school; they engage in business, return to the farm, become bookkeepers, clerks or stenographers. A number of the graduates turn to matrimony and take up the duties of housekeepers and mothers of sons and daughters who will fill the school houses of future years. The class of graduates from the Mesa school have no occasion to fear comparison with those from other similar schools in this state or elsewhere. They leave the school room well equipped for many vocations and with the foundation of character that makes for good citizenship.

Tomorrow evening the baccalaureate sermon will be delivered at the high school auditorium by Rev. E. N. Phillips, pastor of the First Christian church, Phoenix. Mr. Phillips is one of the ablest divines in the county and his address will be well worth hearing. The program for the evening will be as follows:

Invocation, by Rev. David Roberts; Scriptural reading, by Rev. S. W. Gage; Baccalaureate—"Outlook of the Present Moment," by Rev. E. N. Phillips; "Lead, Kindly Light," by Boys' Glee club.

Benediction, by Rev. Mr. Roberts. The graduating exercises will be held at the school on Friday evening, May 17th, at 8 o'clock, and the following named pupils will compose the class:

Carrie A. Bauer, Walter M. Longmoor, Lelan Brack, Win. Irwin Thompson, Eugenia Guthrie, Jessie M. Trinkle, Elmon F. Cox, Jessie M. Elvair, Helen A. Mumford, Annie Wallace, Viva C. Villman, Ralph Brinham, Wilford Briggs. The motto of the class is: "One Summit Reached But Peaks Beyond." The Marchal Niel rose is the class flower, and the class colors are light blue and gold.

YOUNG COUPLE WEDDED

While they did not advertise the fact extensively, their friends have generally learned by this time that Miss Ellen Pansy Ellison and George Clarence Cutler are married. The ceremony was performed at the home of the bride's grandmother, Mrs. Susan Horrel, on Wednesday at noon, only relatives and a few friends being present. The happy couple will reside in one of the Pomeroy cottages near the tabernacle. Mrs. Cutler has spent her girlhood days in the barn section and has a very large circle of friends to wish her all the joys of wedded life and none of the sorrows.

FURNITURE MOVED IN

The furniture of the Mesa Commercial club has been moved from the Metz building to the new quarters prepared for the club in the honey building, adjoining the Connelly store on South Macdonald. The new location is on one of the principal thoroughfares of the city and when the club gets its display arranged will attract the attention of strangers who come to the city.

FINE MULES

Phil Metz and Charley Sabin have purchased a big lot of fine mules and have them at the barn of the Lightning Transfer company. The demand from outside parties for first-class mule teams, and especially the demand from new settlers for good animals to improve their purchases of land south of Mesa, was so great that there is a suspicion that Phil and Charley are trying to corner the mule market.

ENTERTAINED FRIENDS

Mrs. Frank W. Cerny entertained a few friends at her residence Thursday evening, the intention being to especially honor some of the lady school teachers who will soon be leaving for their summer vacation. Refreshments were served and cards and other games made the evening pass pleasantly and quickly. Those present were: Misses Nelma Alexander, Theda Perkins, Jeanette

Stewart, Stella Stone, Mary Hault and Sarah Fay Porter.

POSTPONED

Owing to the rain this week, the annual field day exercises which had been scheduled to come off at Drew's park yesterday were postponed to a later date, probably two weeks hence. The postponement was especially deplored by the members of the fat men's team in the baseball game proposed to be played by the fads and the lems. What is gloom for the fads is joy for the lems, however, the lems believe that by the postponement they have shaved the game far enough forward to inject it into the heated term. They figure that if the weather man does his duty the temperature will be high enough to melt all the play out of their fat opponents.

Not to be entirely deprived of amusement yesterday, a dance was held at the Mesa opera house last night which was attended by those who have entered for the various contests which are to come off when field day arrives.

FUGITIVE ARRIVES

W. S. McNelly, who was fined for intoxication some months since and escaped from the officers, returned to Mesa yesterday and was promptly picked up by Marshal Peterson and given a chance to finish working out a seven dollar fine.

"KICKIN' HIS DAWG AROUND" Jesse A. Steele had a young man arrested some weeks since for taking his Scotch collie away from town and the man served a twenty days' sentence in the county jail for the offense. Since then Mr. Steele has been keeping a pretty close watch on the canine; but in spite of all his vigilance the collie disappeared again a couple of days since and Jesse is anxious to have him turned. The animal is valued quite highly by its owner, even if it is not a Champ Clark dog.

TRAVEL LIGHT

The Alhambra hotel register shows an unusually light travel during the past week. Up to that time the hotels had all been crowded with guests. The arrivals yesterday were: B. F. Joslyn, Fish Creek; J. W. Johnson, U. S. Reclamation Service, Phoenix; H. C. Fox, Phoenix; J. R. Mara, St. Louis; Mrs. Ada Boydson, Phoenix.

MESA WEATHER

The following is the report issued by C. L. Diehl, local weather observer, Mesa, yesterday:

Maximum temperature, 67

Minimum temperature, 59

Mean temperature, 63

Character of day, partly cloudy.

Precipitation, .05 inch.

Forecast, fair.

COTTON GIN

A cotton gin, known as the "Universal Fiber" patent, is on exhibition here and has attracted the attention of many of the Mesa people. A great many in this section never before saw a cotton gin, and it is to them quite a curiosity. The gin in question certainly takes the seed from the cotton, and it is brought here to give the cotton growers a chance to investigate its merits before buying a machine to handle the crop they propose to grow on the Mesa. It is probable that several different makes will be examined before a contract is entered into to buy.

NEWS IN BRIEF

Dr. R. F. Palmer returned yesterday, after an absence from the city of several days.

Town Clerk Arthur A. Jones has been working on his bi-annual report the past few days.

J. T. Lesieur is in San Francisco on a business and pleasure trip combined. He will visit with his daughter, Mrs. Alrd Macdonald while at "Paseo."

J. W. Johnson of the reclamation service, went to Roosevelt yesterday via the Norton auto.

A meeting of the Mesa Commercial club has been called for next Tuesday evening and the new headquarters. All members should be present. Quite a number of people are asking for the new headquarters.

What is Duffy's Pure Malt Whiskey?

It is an absolutely pure distillation of malted grain, and as none but sound, clean grain can be malted, Duffy's Pure Malt Whiskey is made from the most carefully selected grains of the field. It is a predigested liquid food in the form of a medicinal whiskey; its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach.

It is a gentle, invigorating stimulant and tonic that influences for good every important organ of the body. It is a remedy that should be in every family medicine chest.

A Medicine For All Mankind

It brings into action all the vital forces; it makes digestion perfect and enables you to get from the food you eat all the nourishment it contains. It builds up the nerve tissues, tones up the heart, gives power to the brain, strength and elasticity to the muscles and richness to the blood.

It is invaluable for the overworked, delicate and sickly. It strengthens and sustains the system, is a promoter of good health and longevity, makes the old feel young and keeps the young strong and vigorous.

It is a wonderful remedy in the prevention and relief of nervousness, typhoid, malaria, all stomach troubles, diseases of the throat and lungs, and is recognized as a medicine by doctors of all schools.

Thousands of letters have been received from men and women in all walks of life, many from those nearly 100 years old, extolling the virtues of Duffy's Pure Malt Whiskey as the world's greatest medicine.

Sold in SEALED BOTTLES ONLY. Beware of imitations and substitutes. They are positively harmful and are sold for profit only by unscrupulous dealers. Look for the trademark, the "Old Chemist," on the label, and be certain the seal over the cork is unbroken.

Sold by druggists, grocers and dealers or direct, \$1.00 a large bottle. The Duffy Malt Whiskey Co., Rochester, N. Y.

ing what is being done regarding Pinard. If the people are to benefit by that summer resort, the road question should be taken up without delay.

A party of gypsies made their appearance in Mesa yesterday.

Julius Morrin and Alex. Walde formerly connected with Inspiration Copper company at Miami have arrived in Hayden and will enter the employ of the A. S. & R. company.
